Last night at Fatty's alleys the Press Club won two straight games from the Wheeling Bowling Club by a close margin in both games. The Press Club has the honor of being the first team to take two games from the erstwhile leaders of the league. The chagrin of the champions of the park is better imagined than described, while the triumphant yell of the Press Club team awoke the echoes of the Kitchie district hills. A large number of spectators were present, and loudly applauded their favorite teams, and the noise occasioned when the brilliant score of the Press Club's "blind" man was finished equalled a political convention at its full height.

The first game was one of the most closely contested in the history of the Wheeling Bowling league and the result was in doubt until the last ball had been rolled. Had Reymann made a perfect score in his last frame, the Press Club team would have lost by eight points. Grimm, of the Wheeling Bowling Club, had eight straight strikes, but on the ninth frame the best he could do was a spare, which lost him twenty-four pins. He made the highest score of the game, 276, followed by the Press Club's blind man with 250. The score:

In the second game the individual score of the season was broken by the composite bowler of the Press Club, the blind, who made all strikes, and still did not exert himself. In the first half of this game the Press Club team rolled a fine uniform score, and bade fair to excel their former high team score, but, after changing alleys on the fifth frame, they broke badly, and would have lost had not the Wheeling Bowling Club made a poor beginning. In this game Reymann redeemed himself, and tied Grimm's high score of the previous game. Following is the score in detail:

When the result was known the Wheeling Bowling Club not to devise ways and means to prevent the publication of the scores, and one of the members offered the Press Club team two kegs of beer to suppress the score. One of the bowling club members wished to walk home by way of the Terminal railway tunnel, but as he could not get no company he concluded the motor would be more comfortable.

GREER AND McCLELLAND.

Their Coming Race Attracting Much Attention.

The coming race of E. C. McClelland, on roller skates, and Will Greer, on a bicycle, at the North End rink, is attracting much attention and interest, and no doubt when the starter fires the pistol for the start of the five miles of sprinting around the improvised track there will be a large crowd present. This will be the first time that a race between a roller skater and a cyclist has taken place, and the result will be awaited with interest. At present Greer seems to be the favorite of the two contestants, and the general opinion is that he has greatly improved his chances of winning by the banked track which has been put in at the rink. It was finished yesterday afternoon, and Greer had no trouble in going around at a three minute clip.

The Pedro League.

The promoters of the proposed Pedro League have received many applications for membership in it, and at a meeting to be held at the Behler hotel this evening the league will be organized and a schedule of games adopted.

Gov. Hogg to be Arrested.

GALVESTON, TEXAS, Feb. 19.—A special to the News from Nacoz Dorchos says: Gov. J. S. Hogg, of this state, with a party of friends recently on a hunting expedition in Nacoz Dorchos county, killed a deer. It now develops that shooting deer at this season is against the law, and an information has been duly filed against the governor and his party. The county attorney says he will prosecute the case in dead earnest and the sheriff has forwarded a warrant to Austin for the arrest of Governor Hogg, with instructions to accept only a gilt-edged bond.

WILLIAM AND BISMARCK.

The Former Visits the Iron Chancellor at Friedrichsruhe.

Friedrichsruhe, Feb. 19.—Another link has been forged in the chain of reconciliation between the emperor and the veteran statesman or iron chancellor. The visit of Prince Bismarck to Emperor William, the gala reception to the former by the latter, and the German people generally, followed so closely by a return visit on the part of the emperor, means that the ex-chancellor can enjoy the last days of his life in the thought that he is at peace with his sovereign; it is mutually understood on the part of the two great men that this reconciliation is entirely personal and friendly, and all mention of politics is carefully avoided.

Emperor William left Berlin at 2:20 this afternoon and arrived here shortly after 5 o'clock. In spite of the request of the emperor that there should be no demonstration upon the occasion of his arrival here, the railway station and the village were gaily decorated.

Prince Bismarck, upon leaving the castle for the railroad station in order to meet Emperor William, was greeted with loud "hehs" by the crowds of people assembled.

The emperor, who wore a naval uniform, stepped briskly out of the carriage when the train drew up at the platform and approached Prince Bismarck.

Warm and repeated handshakes were exchanged between the emperor and the ex-chancellor, after which the former carefully wrapped the gray cloak around the prince's shoulders, Bismarck having doffed the gray garment just previous to greeting the emperor.

The emperor and Prince Bismarck then walked to the Castle of Friedrichsruhe, followed by the emperor's suite of seven persons. They were enthusiastically greeted by the crowds lining the route.

Upon arriving at the castle Emperor William greeted Prince Bismarck, and with the princess upon his arm, the emperor proceeded to the salon.

WILL STAND BY THE SCALE.

First District Amalgamated Association Will Not Work For Reduced Rates.

Pittsburge, Pa., Feb. 19.—The meeting of the delegates of the First district of the Amalgamated Association of Iron and Steel Workers here to-day, after a lengthy session, decided to stand by the organization and the amalgamated wage scale, and to work for the prices therein and no other. The decision affects about 1,200 men, including those at the Keystone and Byers mills. Non-union men have been secured by the Keystone management, and the plant will be put in operation at once.

The action of the national officers in demanding \$5 per ton from the Shennango and Mahoning Valley manufacturers was also endorsed. The Amalgamated rate in this district is \$4.75 per ton, and many plants are now running at a loss.

Five years ago there was not a non-union mill in the district, and now it is said there is not a single straight Amalgamated mill here, of the 20,000 or more workers not one-tenth are in the organization, and it is feared that in a short time the entire district would go to pieces. The present crisis has been precipitated by the demands of the manufacturers for reductions in puddlers' wages to \$4 a ton.

ELECTION TROUBLES

In the Town of Gayandotte—New One Ordered to be Enjoined.

Special Dispatch to the Intelligencer.

HUNTINGTON, W. VA., Feb. 19.—Gayandotte has been having a time of it with her municipal election. On January 4 last a vote was taken for town officers and the question of license.

The local politicians were successful by a majority of twenty-one, and then the liquor dealers discovered the election was illegal for not being held under the Australian system. The old council sided with them and ordered another vote taken on the 20th of February.

Now it is found that one of the tickets nominated was not properly reported to the recorder, and a number of taxpayers having declared their intention to join the council on holding an election on the 20th, that body has seen fit to defer the vote until the first Thursday in April, but then they will be enjoined if they do. The mayor, Mr. A. E. Smith, does not care to hold over, and has sent in his resignation, which will be acted upon to-morrow night, when it is expected several councilmen will also resign.

At ten o'clock a banquet was served to the members of the order and their friends in the I. O. O. F. Church. About 200 persons attended the banquet, and an enjoyable time was had by all.

ARE YOU AFFECTIONATE?

Do You Know How Exhausting the Sentiments, the Affections Are?

A TALK TO CLEVER PEOPLE.

The Best, the Strongest Men and Women in America Become Exhausted Through the Emotions.

"There is no way by which people exhaust themselves, kill themselves, so quickly as by exercising the affections."

This startling remark was made by one of the best physicians in America. He was a man who had studied deeply, observed keenly, and knew men and women thoroughly. Continuing, he said:

"Sentiment is a grand, a lovely thing, and the world cannot live without it, but the exercise of the sentiments invariably exhausts. People may not feel it, but it is true nevertheless. A man or a woman wears out, breaks down, and then wonders at the cause. In ages before civilization when men only had brute instincts, the feelings were not high, the sentiments were not keen, even the passions were not aroused, but in the present day of breeding, of feeling, men and women may enjoy much, but they exhaust quicker. This is said, but it is true."

"I know I am talking frankly, perhaps bluntly, but I am telling the truth, and if the men and women of the 19th century do not feel the forces that produce sentiments, affections, feelings, they are certain to break down, to become exhausted, and to die before their time. Do not tell me those things are theories, for they are solemn facts."

"You ask me what I would do," he continued, "I answer: Begin to feed these forces; feed them constantly; feed them with the best and most scientific discovery you can secure. If you ask me what is the best, I unhesitatingly say it is that grand preparation which has been so long before the people and is so popular, Warner's Safe Cure. I know that it possesses powers known to no other discovery, and I know that thousands of men and women cannot live without it to-day. If you will stop and think or ask your friends, you will see that what I say is correct, and I believe be led to try it at once if you have not already done so."

The facts stated by the doctor and the advice he gives are sound. It is absolutely true that many men and women are enabled to live and enjoy life entirely through the power which this great remedy gives them, and there are thousands of others who need to follow in the same path.
